TEAMUP WITH FAMILIES

Katy's Kloset

Thank you for considering supporting our amazing mission! Let me tell you a bit about us, and how your donation will make a difference in the lives of children and adults with disabilities.

Team Up With Families Camp: Our day camp, held annually the last week of July, includes programming and activities geared to children of all physical abilities, so a family can send all their children to the same camp. There are many camps in our area that focus on children with various challenges, but our inclusive philosophy makes the camp a unique and meaningful experience for campers, parents, and volunteers. Volunteer 'buddies' are available to help children with physical needs enjoy camp. We are proud to partner with Carroll University to provide physical therapy students to be "buddies."

Katy's Kloset: was started 30 years by a group of parents of kids with special needs sharing outgrown or no-longer needed medical equipment. Today, Katy's Kloset, housed in a 13,000 square foot warehouse, is a home medical equipment "Lending Library." We help people of all ages with a wide variety of home medical equipment and supplies. We serve nearly 4,500 families and individuals per year, loaning thousands of pieces of equipment and supplies. Items are donated to us, and we loan them free of charge to people in need. Re-use is the best way to recycle! Many of our customers would not be able to afford to buy the medical equipment they need and calling "Katy's Kloset" changes their lives. We also work in conjunction with other charitable groups to ship truckloads of overflow supplies to people in need all over the world.
